#### BIO

Deepak Chona, MD is a 5th year orthopedic surgery resident at Stanford with plans to graduate June '22 and begin a one-year sports medicine fellowship at Harvard-Boston Children's Hospital. His inspiration comes from the intersection of orthopedics, sports science, and technology. Therefore, his primary goal is to optimize injury prevention, athletic training, and return to sports by implementing a data-driven approach through widely accessible technology.

He obtained his MD from Perelman School of Medicine at the University of Pennsylvania ('17) and BA from Vanderbilt University ('13). Post-fellowship he hopes to continue his career in Texas or California.

#### CLINICAL FOCUS

- Residency
