

## Jon-Paul Pepper

Assistant Professor of Otolaryngology (Facial Plastic and Reconstructive Surgery) at the Stanford University Medical Center

Otolaryngology - Head & Neck Surgery Divisions

### CLINICAL OFFICES

- **Facial Plastic and Reconstructive Surgery and Otolaryngology**

801 Welch Rd

Stanford, CA 94305

**Tel** (650) 736-3223

**Fax** (650) 725-8502

### ACADEMIC CONTACT INFORMATION

- **Administrative Contact**

Sheena Chand

**Email** schand05@stanford.edu

### Bio

---

#### BIO

Dr. Pepper is a double-board certified surgeon who specializes in aesthetic and reconstructive surgery of the face, in particular surgery for the treatment of facial paralysis. He is the Director of the Stanford Facial Nerve Center. His areas of expertise include facial reanimation surgery, facelift surgery, rhinoplasty, and the reconstruction of the face after skin cancer resection. Dr. Pepper performed his undergraduate studies at Brown University, majoring in Neuroscience. He completed a one-year research fellowship at the National Institutes of Health in preparation for a career in academic medicine. He was awarded his M.D. at the University of California, Irvine, graduating with highest honors and Alpha Omega Alpha designation in 2007. He went to the University of Michigan for residency training in Otolaryngology – Head & Neck Surgery in 2012. He then completed fellowship training in Facial Plastic & Reconstructive Surgery in 2013, also at the University of Michigan.

Dr. Pepper and was honored to receive the highest board score in the nation on the American Board of Facial Plastic & Reconstructive Surgery examination in 2013. For this accomplishment, he was given the Jack R. Anderson Award for Scholastic Achievement.

While on faculty at the University of Southern California from 2013-2017, Dr. Pepper established the USC Facial Nerve Center, and also established a basic science lab that explored new treatments for facial paralysis. His research was recognized by the American Academy of Facial Plastic & Reconstructive Surgery, for which he was given the Research Scholar Award in 2014. This award, with other grant support, has permitted the growth of a basic science research program under his direction which is dedicated to facial nerve regeneration.

In 2017, he joined the faculty at Stanford School of Medicine, and was specifically recruited to launch the Stanford Facial Nerve Center.

#### CLINICAL FOCUS

- Facial Paralysis Surgery
- Facial Plastic Surgery
- Rhinoplasty

- Skin cancer reconstruction
- Facelift Surgery
- Facial Reconstructive Surgery
- Aesthetic Surgery
- Filler and Botox(tm)
- Otolaryngology

### **ACADEMIC APPOINTMENTS**

- Assistant Professor - Med Center Line, Otolaryngology - Head & Neck Surgery Divisions

### **ADMINISTRATIVE APPOINTMENTS**

- Director, Stanford Facial Nerve Center, (2017- present)

### **HONORS AND AWARDS**

- Faculty Scholar Award, Donald E. and Delia B. Baxter Foundation (2015)
- Research Scholar Award, American Association of Facial Plastic & Reconstructive Surgeons (2015)
- Research Scholar Award, American Association of Facial Plastic & Reconstructive Surgeons (2014)
- Jack Anderson Award (Given for highest national board score), American Board of Facial Plastic & Reconstructive Surgery (2013)
- Dr. Paul Holinger Resident Research Award, Triological Society (2010)
- Zeta Chapter, Alpha Omega Alpha Honor Medical Society (2007)

### **PROFESSIONAL EDUCATION**

- Board Certification: Facial Plastic Surgery, American Board of Facial Plas Recon Surgery (2016)
- Board Certification: Otolaryngology, American Board of Otolaryngology (2013)
- Fellowship: University of Michigan Health System Internal Medicine Residency (2013) MI
- Residency: University of Michigan Health System (2012) MI
- Medical Education: University of California, Irvine (2007) CA

## **Research & Scholarship**

---

### **CURRENT RESEARCH AND SCHOLARLY INTERESTS**

Facial paralysis is a debilitating condition that affects thousands of people. Despite excellent surgical technique, recovery from facial nerve injury is currently limited by the regenerative capacity of the body. The mission of our research is to identify new treatments that improve current facial paralysis treatments. We do this by exploring the regenerative cues that the body uses to restore tissue after nerve injury, in particular through pathways of neurogenesis and nerve repair, such as the hedgehog signaling pathway.

Please visit our website at the URL below to see ongoing projects, open positions, publications, and more information about our research.

## PRESENTATIONS

- The Role of Hedgehog-responsive Cells in Facial Nerve Regeneration - Combined Otolologic Spring Meeting (4/28/2016)
- Age-Related Histologic and Biochemical Changes in Auricular and Septal Cartilage - Triological Society Combined Sections Meeting (1/20/2017)
- Co-Culture in Microfluidic Device of Human Induced Pluripotent Stem-Cell Derived Motor Neurons With Muscle - Combined Otolologic Spring Meeting (5/19/2016)
- Local Flaps in Facial Reconstruction and Research Update - USC Caruso Department of Otolaryngology Grand Rounds (4/22/2016)
- Matching Patient Goals to Choice of Nasal Reconstruction - The Stanford Nasal Plastic Surgery Course (10/16/2015)
- Diced cartilage onlay grafts - The Stanford Nasal Plastic Surgery Course (10/15/2015)
- Local Flaps in Facial Reconstruction - Keck USC Department of Dermatology Grand Rounds (10/6/2015)
- What's new in Stem Cells - American Association of Facial Plastic Surgery 2015 Fall Meeting (10/2/2015)
- Prevention of neuromuscular atrophy via transplantation of human stem cell-derived motor neurons - American Association of Facial Plastic Surgery 2015 Fall Meeting (10/1/2015)
- Anatomic Considerations for Nerve Transfers in Facial Nerve Reanimation Surgery - American Association of Facial Plastic Surgery 2014 Fall Meeting (9/14/2014)
- Facial Nerve Paralysis: from Bell's Palsy to Reinnervation - Pacific Coast Oto-Ophthalmologic Society (6/29/2014)
- Revision Rhinoplasty - The Third UC Irvine Rhinoplasty Course (5/3/2014)
- Facial nerve paralysis: Guidelines for Workup & Treatment - Verdugo Hills Hospital Medical Staff Grand Rounds (4/3/2014)
- Facial Nerve Paralysis: from Bell's Palsy to Reinnervation - UC Irvine Department of Otolaryngology Grand Rounds (2/19/2014)
- Facial Nerve Paralysis: from Bell's Palsy to Reinnervation - Keck USC Dept. of Neurology Grand Rounds (2/4/2014)
- Scar outcomes after nasal reconstruction - American Association of Facial Plastic Surgery 2012 Spring Meeting at COSM (2012)
- Subcutaneous emphysema following endoscopic Zenker's diverticulum repair and postoperative CPAP use - Combined Otolaryngologic Spring Meeting 2012 (2012)
- Esthesioneuroblastoma: updating histologic grading as it relates to prognosis - North American Skull Base Society 22nd Annual Meeting 2012 (2012)
- Type and Frequency of Revision Surgeries following Open Surgery of the Anterior Cranial Base - The Triological Society 2012 Combined Sections Meeting (2012)
- Quality of life and scar assessment following nasal reconstruction - American Academy of Facial Plastic and Reconstructive Surgery 2010 Fall Meeting (2010)

- Approach to the midface in patients with facial nerve paralysis - International Symposium of Facial Plastic and Reconstructive Surgery (2010) (2010)
- Baseline Severity of Obstructive Sleep Apnea Syndrome (sOSAHS) vs. Body Mass Index (BMI): Their Role as Predictors for Surgical Treatment Success - The Triological Society 2007 Annual Meeting at COSM (2007)
- The Persian American woman's face: an anthropometric analysis - American Academy of Facial Plastic and Reconstructive Surgery Fall Meeting (2007) (2007)
- Prototype of an otoscope webcam – potential applications for primary care - American Academy of Family Physicians Scientific Assembly (2006) (2006)
- Cerebrovascular effects of possible alzheimer's disease cofactors - Gladstone Institutes Retreat (2001) (2001)
- Abnormal ERP response in former drug abusers - Evoked Potentials International Conference (1998) (1998)
- Ethnicity and the tendency for rhinoplasty surgery - Department of Otolaryngology 7th annual Research Symposium, U.C. Irvine (2006) (2006)
