### BIO

Dr. Kuswanto is a physician scientist, board-certified Rheumatologist and instructor in medicine at Stanford University School of Medicine. He is currently working with Garry Nolan, PhD and William Robinson MD, PhD to unravel the tissue immune responses in Rheumatologic diseases. Dr. Kuswanto obtained his medical degree at Harvard Medical School, earning his PhD in Immunology with Diane Mathis and Christophe Benoist where he uncovered the role of the immune system in tissue repair and regeneration. He later moved to Stanford University to complete his residency training and Rheumatology fellowship.
