Bio

BIO

Dr. Joshua Menke completed his hematopathology fellowship at Stanford and cytopathology fellowship at University of California San Francisco (UCSF). His clinical and research interests lie at the intersection of hematopathology, cytopathology and advanced single cell and cell free diagnostic techniques. As Associate Director of the Flow Cytometry lab at Stanford, Dr. Menke will be developing and validating new minimal residual disease assays for detecting low levels of hematopoietic and lymphoid neoplasms in the post-treatment setting. Dr. Menke is the recipient of the Paul E. Standjord Young Investigator Award from the Academy of Clinical Laboratory Scientists and Laurance J. Marton Award for Excellence in Research from UCSF for his translational work on CALR mutations at the UCSF Molecular Diagnostics Laboratory. Currently, he is spearheading novel genomic and proteomic analytic techniques to study cytology samples obtained for lymphoma diagnostics, including sequencing cell-free tumor DNA from supernatant samples. Dr. Menke is a founding member of the Cytology-Hematopathology Interinstitution Collaboration (CHIC) that aims to study the performance of cytology samples in diagnosing lymphoma across large datasets from five academic institutions.

CLINICAL FOCUS

- Anatomic and Clinical Pathology

ACADEMIC APPOINTMENTS

- Clinical Assistant Professor, Pathology

ADMINISTRATIVE APPOINTMENTS

- Associate Director of Flow Cytometry Laboratory, Stanford, (2020- present)

PROFESSIONAL EDUCATION

- Board Certification: Hematopathology, American Board of Pathology (2018)
- Board Certification: Cytopathology, American Board of Pathology (2018)
- Board Certification: Anatomic and Clinical Pathology, American Board of Pathology (2015)
- Fellowship, Stanford University , Hematopathology (2018)
- Fellowship, University of California San Francisco , Cytopathology (2017)

- Clinical Instructor, Johns Hopkins Hospital , Surgical Pathology (2016)
- Residency, University of California San Francisco , Anatomic and Clinical Pathology (2015)
- Residency, Mayo Clinic Graduate Medical Education , Anatomic and Clinical Pathology (2012)
- MD, University of Florida College of Medicine (2011)
