Bio

BIO

Dr Shanthi Kappagoda is a board certified infectious disease physician. She specializes in the care of patients in the ICU with infectious diseases and also has a clinic where she treats general infectious diseases including tuberculosis, urinary tract infections, endocarditis, MRSA infections, pneumonia, coccidioidomycosis and tropical diseases. She has a special interest in bone and joint infections and left ventricular assist device infections. She is involved in Stanford's COVID-19 response including developing treatment guidelines for the infectious disease division and the department of medicine. She was an investigator in a clinical trial of remdesivir in patients with COVID-19 and in an expanded access program for convalescent plasma for patients with severe disease.

CLINICAL FOCUS

- Infectious Disease

ACADEMIC APPOINTMENTS

- Clinical Associate Professor, Medicine - Infectious Diseases

PROFESSIONAL EDUCATION

- Maintenance of Certification, American Board of Internal Medicine , Infectious Disease (2021)

- Maintenance of Certification, American Board of Internal Medicine , Internal Medicine (2020)
- Fellowship, Stanford University , Infectious Disease Fellowship (2013)
- MS, Stanford University , Health Services Research (2013)
- Residency: Brigham and Women's Hospital Harvard Medical School (2007) MA
- Internship: Brigham and Women's Hospital Harvard Medical School (2005) MA
- Medical Education: University of California Davis School of Medicine (2004) CA
- MS, Harvard School of Public Health , Tropical Public Health (1999)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Completed a Masters degree in Health Services Research in 2012. Research focused on using network models to develop a clinical research agenda for neglected tropical diseases.
