

Andrew Shen

Ph.D. Student in Biomedical Data Science, admitted Autumn 2025

Bio

BIO

Hi, my name is Andrew! I'm a current PhD student in Biomedical Data Science and an NSF Graduate Research Fellow. I am broadly interested in solving problems at the intersection of AI and science, but particularly in the areas of biology and medicine. Before my PhD, I worked at Harvard Medical School with Marinka Zitnik on developing machine learning methods for medicine and science.

Feel free to reach out to connect!
