Bio

BIO

Mariana Schmajuk received her medical school education at Boston University School of Medicine in 2012. She completed her General Adult Psychiatry Residency program Mount Sinai School of Medicine in New York in 2016, serving as Chief Resident with a focus on the early transition from medical school to residency. She went on to complete her Consult-Liaison fellowship at New York-Presbyterian Hospital Columbia University Medical Center in 2017.

Dr. Schmajuk joined Stanford University CLP team in 2017. She is a primary member of the emergency medicine consultations, working collaboratively with a nurse practitioner, social worker and residents. Clinically, Dr. Schmajuk focuses on treating patients with terminal neurological disorders and oncological processes.

Dr. Schmajuk is the director of the Psychosomatic Continuity clinic where residents and fellows are able to assess and longitudinally treat patients with psychiatric sequelae in the context of complex medical illness. She has a particular interest in brief psychotherapeutic interventions. She enjoys teaching medical students about CL psychiatry and interviewing skills. At present, Dr. Schmajuk is using techniques of applied improvisation to educate psychiatry residents and others about the building blocks of communication. She also is an active member of the bioethics committee.

CLINICAL FOCUS

- Psychiatry
- Consult-Liaison Psychiatry
