### Bio

---

#### BIO

Douglas W. Blayney, MD is a Professor of Medicine (Oncology) at Stanford, former Medical Director of Stanford Cancer Center, and specializes in the treatment of breast cancer. He has a special interest in the quality and value of cancer care. Dr. Blayney is a past president of the American Society of Clinical Oncology (ASCO), a founder of the ASCO Quality Symposium, and co-author of the ASCO value framework descriptions. He received the inaugural Ellen Stovall Award for Leadership in Patient Centered Care from the National Coalition for Cancer Survivorship in 2016. He was previously a Professor of Internal Medicine and Medical Director of the Comprehensive Cancer Center at the University of Michigan, and prior to that practiced and led Wilshire Oncology Medical Group, Inc. a physician owned multidisciplinary oncology practice in southern California. He has expertise on clinical trial development, use of oncology drugs in clinical practice, reimbursement and marketing strategies and information technology use.

Dr. Blayney's research interests include breast cancer, febrile neutropenia mitigation, the use of electronic technology to enhance medical practice, and he has over 70 scientific publications. He has served on the Food and Drug Administration's Oncologic Drugs Advisory Committee, and is Founding Editor-in-Chief and Editor-in-Chief Emeritus of ASCO's Journal of Oncology Practice. He has a degree in electrical engineering from Stanford, is a graduate of the University of California, San Diego School of Medicine, and received post graduate training at UCSD and at the National Cancer Institute in Bethesda, Maryland.

He is married, and has three grown daughters, one of whom is also a physician.

#### CLINICAL FOCUS

- Cancer > Breast Cancer
- Medical Oncology
- Cancer Survivorship

#### ACADEMIC APPOINTMENTS

- Professor - Med Center Line, Medicine - Oncology
- Member, Stanford Cancer Institute

## ADMINISTRATIVE APPOINTMENTS

- President, Wilshire Oncology Medical Group, Inc., (1996-2003)
- Medical Director, University of Michigan Comprehensive Cancer Center, (2003-2010)
- Medical Director, Stanford Cancer Center, (2010-2015)
- Medical Director for Quality and Outreach, Stanford Cancer Institute, (2015- present)

## HONORS AND AWARDS

- Joseph V. Simone Award for Excellence in Quality and Safety in the Care of Patients with Cancer, American Society of Clinical Oncology (2018)
- The Ellen Stovall Award for Leadership in Patient-Centered Care, National Coalition for Cancer Survivorship (2016)
- President, American Society of Clinical Oncology (2009-10)
- Best Doctors in America, . (2007 - current)
- Fellow, American Society of Clinical Oncology (2007)
- Fellow, American College of Physicians (1991)

## PROFESSIONAL EDUCATION

- Residency: UCSD Internal Medicine Residency (1980) CA
- Medical Education: University of California San Diego School of Medicine Registrar (1977) CA
- Fellowship: National Cancer Institute - Center Cancer Research (1983) MD
- Board Certification: Medical Oncology, American Board of Internal Medicine (1983)
- Board Certification: Internal Medicine, American Board of Internal Medicine (1980)
- Fellowship, Medicine Branch, National Cancer Institute, Bethesda, Maryland (1983)
- Fellowship, Environmental Epidemiology Branch, National Cancer Institute, Bethesda, Maryland (1983)
- Resident, University of California Hospitals, San Diego (1980)
- M.D., University of California, San Diego (1977)
- B.S.E.E., Stanford University (1972)

## Research & Scholarship

---

### CURRENT RESEARCH AND SCHOLARLY INTERESTS

During my tenure as Medical Director of the Stanford Cancer Institute (2010-15)

The Patient Experience, as measured by the Press-Ganey question “Likelihood to Recommend the Institution” for care, increased from the ninth percentile to consistently above the 90 percentile.

I co-lead a task force that developed a strategic plan for the clinical operations of SCI, which was incorporated into a larger plan to transform cancer care at Stanford and nationwide. This plan resulted in a large gift, a substantial portion of which is allocated to Transform Cancer Care at Stanford and the nation (“the Transformation”).

Growth, as measured by new patient visits, increased by eleven percent year over year starting in fiscal year 2012, the year in which we set a goal to grow by fifty percent by 2017.

Stanford's Cancer Program has increased its ranking to number 10 in the nation for 2014 in the US News and World Report's (USNWR) latest ranking of cancer programs. Stanford ranked 14th in 2011. Cancer is the highest ranked Stanford Program in the USNWR system.

## CLINICAL TRIALS

- A Study of Atezolizumab and Paclitaxel Versus Placebo and Paclitaxel in Participants With Previously Untreated Locally Advanced or Metastatic Triple Negative Breast Cancer (TNBC), Recruiting
- Olaparib as Adjuvant Treatment in Patients With Germline BRCA Mutated High Risk HER2 Negative Primary Breast Cancer, Recruiting
- A Study Evaluating Talazoparib (BMN 673), a PARP Inhibitor, in Advanced and/or Metastatic Breast Cancer Patients With BRCA Mutation (EMBRACA Study), Not Recruiting
- A Study of Abemaciclib (LY2835219) Combined With Fulvestrant in Women With Hormone Receptor Positive HER2 Negative Breast Cancer, Not Recruiting
- A Study of Palbociclib in Addition to Standard Endocrine Treatment in Hormone Receptor Positive Her2 Normal Patients With Residual Disease After Neoadjuvant Chemotherapy and Surgery, Not Recruiting
- A Study of Trastuzumab Emtansine (Kadcyla) Plus Pertuzumab (Perjeta) Following Anthracyclines in Comparison With Trastuzumab (Herceptin) Plus Pertuzumab and a Taxane Following Anthracyclines as Adjuvant Therapy in Participants With Operable HER2-Positive Primary Breast Cancer, Not Recruiting
- Brief Behavioral Intervention for Insomnia During Chemotherapy, Not Recruiting
- Chemotherapy With or Without Trastuzumab After Surgery in Treating Women With Invasive Breast Cancer, Not Recruiting
- Docetaxel, Carboplatin, Trastuzumab, and Pertuzumab With or Without Estrogen Deprivation in Treating Patients With Hormone Receptor-Positive, HER2-Positive Operable or Locally Advanced Breast Cancer, Not Recruiting
