#### BIO

Tim Wang, M.D. is an Orthopaedic Surgeon at Stanford Healthcare specializing in Sports Medicine. Dr. Wang sees patients and performs surgeries at the Stanford Medicine Outpatient Center in Redwood City and Stanford Healthcare in Emeryville.

Dr. Wang's clinical expertise includes the management of sports injuries of the knee, shoulder, and elbow using the most innovative arthroscopic and minimally invasive techniques. He has particular interest in knee cartilage regeneration, cartilage transplantation, and knee ligament reconstruction. He also provides comprehensive shoulder care (including rotator cuff tears and shoulder replacement), as well as treats fractures of the upper and lower extremities.

Originally from Chicago, Dr. Wang recognized his passion for medicine early in his career and committed to the Honors Program in Medical Education at Northwestern University. He continued his training at the Northwestern University Feinberg School of Medicine. In recognition of his academic achievements, Dr. Wang was elected to the Alpha Omega Alpha honors society and also received his medical degree with Distinction in Research. He completed his orthopaedic surgery residency at Stanford University and went on to pursue subspecialty training in Sports Medicine and Shoulder Surgery at the Hospital for Special Surgery in New York, the top ranked Orthopaedic hospital in the nation. While in New York, he served as the Clinical Fellow for the Brooklyn Nets NBA team and Iona College athletics (NCAA DI MAAC). Dr. Wang has participated in the care of countless collegiate and professional athletes. He currently serves as Team Physician for Laney College and Merritt College in Oakland.
