Bio

BIO

Professor Lowe trained as a biologist in the UK at Sussex University. He moved to The USA for graduate training with Greg Wray at SUNY Stonybrook in the Department of Ecology and Evolution, where he worked on the evolution of body plans and the origin of the echinoderms. Following his PhD. he worked as a Miller Fellow at UC Berkeley working on the origin of chordates focussing on the evolution of the vertebrate central nervous system, first in Mike Levine's lab, then with John Gerhart and Marc Kirschner from Harvard. His first academic position was as an Assistant Professor in the Department of Organismal Biology and Anatomy at the University of Chicago in 2005. He moved to Stanford in 2010 and his lab is based at Hopkins Marine Station in Monterey.

His main research interests involve how major groups of animals evolved and is interested in adapting emerging techniques in biotechnology to apply to new species.

His appointment at Hopkins Marine Station gives access to the incredible biodiversity of the marine environment in Monterey Bay.

ACADEMIC APPOINTMENTS

- Professor, Biology
- Member, Bio-X
- Member, Wu Tsai Neurosciences Institute

ADMINISTRATIVE APPOINTMENTS

- Director, Center of Cellular and molecular Diversity, (2022- present)

HONORS AND AWARDS

- BioHub Investigator, Chan/Zuckerberg, BioHub (07/01/2022 - 06/30/27)
- Searle Scholars Fellow, Searle Scholars Program (2008-2011)
- Miller Postdoctoral Fellowship, UC Berkeley (1998-2001)

PROFESSIONAL EDUCATION

- BSc. Hons, University of Sussex , Biology with European Studies (1991)
- PhD, Dept of Ecology and Evolution, SUNY Stony Brook , Ecology and Evolution (1998)

LINKS

- <http://lowe.stanford.edu>: <http://lowe.stanford.edu>

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Evolution and development, specifically the evolution of the deuterostomes

Teaching

COURSES

2023-24

- Developmental Biology in the Ocean: Comparative Embryology and Larval Development: BIOS 236 (Spr)
- Macroevolution: BIO 136, BIO 236, EPS 136, EPS 236 (Spr)

2022-23

- Comparative Single-cell Genomics in the Ocean: BIO 269, BIOE 269 (Sum)

2021-22

- Developmental Biology in the Ocean: Comparative Embryology and Larval Development: BIOS 236 (Spr)
- Macroevolution: BIO 136, BIO 236, GEOLSCI 136, GEOLSCI 236 (Win)

2020-21

- Developmental Biology in the Ocean: Comparative Embryology and Larval Development: BIOS 236 (Spr)
- Life history variation in the evolution of developmental mechanisms: BIOHOPK 350H (Sum)
- Macroevolution: BIO 136, BIO 236, GEOLSCI 136, GEOLSCI 236 (Win)

STANFORD ADVISEES

Doctoral Dissertation Reader (AC)

Joel Erberich, Pranav Vyas, Livia Wyss

Postdoctoral Faculty Sponsor

Laurent Formery, Jana Sipkova

Doctoral Dissertation Advisor (AC)

Lauren Lubeck, Albert Martí i Sabari

GRADUATE AND FELLOWSHIP PROGRAM AFFILIATIONS

- Biology (School of Humanities and Sciences) (Phd Program)

Publications

PUBLICATIONS

- **Untangling posterior growth and segmentation by analyzing mechanisms of axis elongation in hemichordates** *PROCEEDINGS OF THE NATIONAL ACADEMY OF SCIENCES OF THE UNITED STATES OF AMERICA*
Fritzenwanker, J. H., Uhlinger, K. R., Gerhart, J., Silva, E., Lowe, C. J.
2019; 116 (17): 8403–8
