Bio

BIO

Dr. Mikkineni is a vascular surgeon who specializes in vascular disease including critical limb ischemia and limb salvage, abdominal and thoracic aortic aneurysms.

Specific areas of interest include: endovascular procedures for peripheral vascular disease, management of carotid disease, thoracic outlet syndrome, mesenteric ischemia.

Additional areas of interest encompass hemodialysis access and venous disorders such as varicose veins. His special interest include fenestrated and branched endografts in management of aortic and thoracic aneurysms, and aortic disease.

Dr. Mikkineni's research topics include abdominal aortic aneurysm and vascular conduits for bypass. He has published on the surgical treatment of aortic aneurysms and the use of extracorporeal membrane oxygenation (ECMO) treatment of acute respiratory distress syndrome (ARDS).
