Professional Overview

BIO

Born and raised in northwest Washington State, I knew from a young age that I would work in the health care field. I enjoy the clinical and personal aspect of my role as a Physician Assistant and find great joy in working with patients through triumphs and struggles. I try to focus and incorporate both mental and physical aspects of life and seek to identify achievable and sustainable modalities to maintain overall well-being.

CLINICAL FOCUS

- Cancer > Blood and Marrow Transplant
- Physician Assistant

PROFESSIONAL EDUCATION

- BA, Western Washington University , Spanish Language and Literature (2005)
