Bio

BIO

Dr. Vikram Fielding-Singh is a Clinical Assistant Professor in the Department of Anesthesiology, Perioperative and Pain Medicine at Stanford University. He obtained his medical degree from Stanford University and completed residency training at the University of California, San Francisco. He then pursued dual cardiac anesthesia and critical care training at the University of California, Los Angeles. He holds a juris doctorate from Yale Law School. Dr. Fielding-Singh's research interests include improving perioperative care of patients with end stage kidney disease, using biomarkers to aid early diagnosis of acute kidney injury, and evaluating the performance of risk prediction models in perioperative medicine.

CLINICAL FOCUS

- Anesthesia
- Cardiothoracic Anesthesiology
- Critical Care Medicine

ACADEMIC APPOINTMENTS

- Clinical Assistant Professor, Anesthesiology, Perioperative and Pain Medicine

PROFESSIONAL EDUCATION

- Board Certification: Critical Care Medicine, American Board of Anesthesiology (2020)
- Board Certification: Adult Comprehensive Echocardiography, National Board of Echocardiography (2019)
- Board Certification: Anesthesia, American Board of Anesthesiology (2019)
- Fellowship: UCLA Critical Care Fellowship Program (2020) CA
- Fellowship: UCLA Adult Cardiothoracic Anesthesia Fellowship (2019) CA
- Residency: UCSF Anesthesiology Residency (2018) CA
- Internship: Kaiser Permanente San Francisco Internal Medicine Residency (2015) CA
- Medical Education: Stanford University School of Medicine (2014) CA

- JD, Yale Law School (2010)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

I am a clinical investigator interested in improving perioperative care of patients with end stage kidney disease, using biomarkers to aid early diagnosis of acute kidney injury, optimizing care for high-risk cardiac surgical patients and those on mechanical circulatory support, and evaluating the performance of risk prediction models in perioperative medicine.

CLINICAL TRIALS

- Strategies for Anticoagulation During Venovenous ECMO, Recruiting
