

Aysha Abraibesh

Clinical Research Coordinator Associate, Psych/General Psychiatry and Psychology (Adult)

Bio

BIO

Aysha Abraibesh, MPA is a clinical research coordinator in the Department of Psychiatry & Behavioral Sciences at the Stanford University School of Medicine. She works primarily on the Stanford Apnea and Insomnia Study (AIR) Study, led by Dr. Rachel Manber (more info can be found at airstudy.stanford.edu)

Aysha earned her Bachelor's degree in Psychology (2012) and Master's in Public Administration (2013) both from Clark University in Worcester, Massachusetts. She has since held multiple positions supporting research studies related to social and behavioral health issues, most recently as a Lead Behavioral Health Interviewer at Kaiser Permanente's Center for Health Research in Portland, Oregon.
