- Medical Education: Mount Sinai Medical Center (2014) NY
- Applied Epidemiology Fellowship, Centers for Disease Control and Prevention (2013)

Research & Scholarship

RESEARCH INTERESTS

- Adolescence
- Technology and Education

CURRENT RESEARCH AND SCHOLARLY INTERESTS

Dr. Hart-Cooper's research focuses on youth provider barriers and education surrounding pre-exposure prophylaxis for HIV (PrEP). He founded the Virtual PrEP Program for Adolescents and Young Adults at Stanford to improve access to PrEP care for youth within California. In his current role, he advises health departments and health systems in creating youth-focused telehealth tools to improve youth access to PrEP.
