## Rebecca Jane Osborne

CTRU Deputy Director, School of Medicine - General Clinical Research Center

### Bio

---

#### BIO

Rebecca has significant experience in commercial and academic scientific research organizations in Australia, Canada and the USA. Her career started in medical and biological based research at the Australian National University, Commonwealth Industrial and Research Organisation (CSIRO) and the University of British Columbia, before moving into scientific business development, drug development and operations roles at CSIRO, Biotron Ltd., The Queensland Institute of Medical Research (QIMR) and Implicit Bioscience Ltd. Notably, Rebecca was Deputy Director, Operations for the Centre for Advanced Imaging at UQ, (Brisbane, Australia) where she established and implemented a range of best practice business and process improvements. Her work is now focused on the creation of responsive, sustainable research infrastructure organizations.
