

Vipul Sheth, MD, PhD

Assistant Professor of Radiology (Body MRI)

 Curriculum Vitae available Online

CLINICAL OFFICE (PRIMARY)

- **Diagnostic Radiology**

300 Pasteur Dr Rm S092

MC 5105

Stanford, CA 94305

Tel (650) 723-4527 **Fax** (650) 723-1909

Bio

BIO

Dr. Sheth is a board-certified, fellowship-trained radiologist with Stanford Health Care Radiology. He is also an assistant professor in the Department of Radiology, Division of Body MRI at Stanford University School of Medicine.

Dr. Sheth is clinically trained in general and nuclear radiology. He has subspecialty expertise in body magnetic resonance imaging (MRI) and MRI-guided procedures such as biopsies and ablation (a minimally invasive procedure that destroys abnormal tissue). His other clinical interests include rectal cancer MRIs, pelvic floor MRIs, and positron emission tomography (PET) MRI applications for diagnosing and treating pelvic tumors. He uses advanced tools that help patients get timely, accurate answers and appropriate treatment.

Dr. Sheth has a diverse background in developing and translating MRI technologies. During his graduate research, he developed an MRI-based method to measure pH in breast tumor models. In residency, he investigated how the ultrashort echo time MRI technique in the brain can evaluate myelin (a protective sheath found around nerve fibers) in patients with cystic fibrosis. Other research interests include developing MRI-guided focal (localized) therapies that can personalize treatment and reduce morbidity risks.

Dr. Sheth is involved in multiple research projects funded by the National Institutes of Health (NIH). He has shared his research at regional, national, and international meetings, where he has won awards and moderated case panels.

Dr. Sheth has published his work in national peer-reviewed journals and served as a peer reviewer for the Journal of Magnetic Resonance Imaging, Magnetic Resonance Imaging, Molecular Imaging and Biology, and NMR in Biomedicine. His paper for IEEE Transactions on Medical Robotics and Bionics won best paper of the year in 2021.

Dr. Sheth is a member of multiple societies, including the International Society for Magnetic Resonance in Medicine, the Radiological Society of North America, the Society of Nuclear Medicine and Molecular Imaging, and the Society for Advanced Body Imaging. He is also a member of the California

Medical Association, the Pelvic Floor Disorders Consortium with the American Society of Colon and Rectal Surgeons, and the Society of Abdominal Radiology, where he is part of the Pelvic Floor Disease Focus Panel.

CLINICAL FOCUS

- Diagnostic Radiology

ACADEMIC APPOINTMENTS

- Assistant Professor - University Medical Line, Radiology
- Member, Bio-X

HONORS AND AWARDS

- Dean's High Honors List, Case Western Reserve University (2000-2004)
- Department Stores National Merit Scholarship, Case Western Reserve University (2000-2004)
- Ohio Academic Scholarship, Case Western Reserve University (2000-2004)
- Whitaker Case Summer Research Fellow, Department of Biomedical Engineering, Case Western Reserve University (2001)
- ISMRM Education Stipend Award to Present Poster, 17th International Society for Magnetic Resonance in Medicine (ISMRM), Honolulu, Hawaii (2009)
- Student Stipend Travel Award to Present Poster, World Molecular Imaging Congress (WMIC), Montreal Canada (2009)
- First Place Poster for Akron General Medical Center, NEOMED Internal Med. Residency Research Day, Rootstown, Ohio (2013)
- AUR Scholar Program Participant, AUR Annual Meeting, Baltimore, Maryland (2014)
- ISMRM Trainee Stipend Award to Present, 23rd International Society for Magnetic Resonance in Medicine (ISMRM), Milan, Italy (2014)
- Robert R Mattrey Clinician-Scientist Award, Department of Radiology, University of California San Diego (2018)
- Member, Academy Council for Early Career Investigators in Imaging (CECI2) (2020)

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Member, International Society for Magnetic Resonance in Medicine (2008 - present)
- Member, Radiological Society of North America (2010 - present)
- Member, California Medical Association (2013 - present)
- Member, Society for Nuclear Medicine and Molecular Imaging (2016 - present)
- Member, Society for Advanced Body Imaging (2019 - present)
- Member, Society for Abdominal Radiology (2019 - present)

PROFESSIONAL EDUCATION

- Board Certification: Nuclear Radiology, American Board of Radiology (2021)
- Board Certification: Diagnostic Radiology, American Board of Radiology (2019)
- Fellowship: Stanford University Radiology Fellowships (2019) CA
- Residency: UCSD Dept of Radiology (2018) CA
- Transition Year Residency, Akron General Medical Center, Akron, OH (2013)
- Internship: Summa Health at Akron General Internal Medicine and Preliminary Year Training (2013) OH
- Medical Education: Case Western Reserve School of Medicine (2012) OH
- Diplomate, American Board Radiology (2019)
- Body MRI Fellowship, Stanford University (2019)
- Clinician Scientist, Radiology Research Residency, University of California, San Diego (2018)

- M.D. & Ph.D., Medical Scientist Training Program, Case Western Reserve University, Cleveland, OH (2012)
- B.S.E., Biomedical Engineering, Case Western Reserve University, Cleveland, OH (2008)

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

My interests are in the development and translation of imaging technologies geared toward disease detection and characterization to better guide prognosis, treatment, and improve outcomes. I'm interested in supporting the development of MRI guided focal therapy methods which can personalize treatment and reduce the risk of morbidity from more invasive therapies.

Clinical Interests

- MRI for diagnosis of pelvic floor disorders
- MRI and PET/MRI to pelvic malignancies and lymph node staging.
- Whole Body MRI
- MRI guided procedures including biopsies, cryoablation, and high intensity focused ultrasound.

Translational Research Interests

- Development and translation of magnetic resonance imaging technologies to improve both diagnostics and therapeutics
- Molecular imaging and characterization of the tumor microenvironment
- Ultrashort echo time MRI applications in the body
- Developing synergistic MRI methods to complement PET in potential applications for PET/MRI

CLINICAL TRIALS

- Diabetes RElated to Acute Pancreatitis and Its Mechanisms, Recruiting
- Organ Preservation Program Using Short-Course Radiation & FOLFOXIRI in Rectal Cancer, Not Recruiting
- Study to Assess Efficacy and Safety of Cx601, Adult Allogeneic Expanded Adipose-derived Stem Cells (eASC) for the Treatment of Complex Perianal Fistula(s) in Participants With Crohn's Disease (CD), Not Recruiting

Teaching

COURSES

2024-25

- Introduction to Imaging and Image-based Human Anatomy: BIOE 220, BMP 220, RAD 220 (Win)

STANFORD ADVISEES
