Cailin Collins, MD PhD

- Postdoctoral Medical Fellow, Hematology
- Fellow in Medicine

Bio

BIO

Received her undergraduate degree from Williams College, after which she spent one year conducting research at the NIH National Cancer Institute. She then attended medical school at the University of Michigan, where she also completed a PhD in Molecular and Cellular Pathology as part of the Medical Scientist Training Program. She completed residency at UCSF prior to starting Hematology and Oncology fellowship training at Stanford. Her prior research has focused on the transcription factor biology and deregulated signaling pathways in hematologic malignancies. She is currently a postdoctoral fellow in Dr. Ravi Majeti's lab studying clonal hematopoiesis and preleukemic stem cells.

CLINICAL FOCUS

- Malignant Hematology
- Clonal Hematopoiesis
