## Bio

### BIO

Dr. Hui is a Clinical Assistant Professor in the Department of Medicine, Division of Primary Care Population Health at Stanford University School of Medicine. He is the POCUS (point of care ultrasound) and Minor Procedure Service Director. He serves as the Primary Care lead in the system-wide Stanford POCUS Governance group. He practices acute outpatient medicine within the Stanford Family Medicine clinic and precepts medical students and residents. He also works at the Peninsula Health Clinic at LifeMoves Opportunity Center, a free clinic in Palo Alto, CA. He completed a Clinical Ultrasound fellowship at the University of Pennsylvania (2021-2022).

He is interested in the outpatient utilization of POCUS and currently focuses his POCUS teaching on primary care clinicians. Most recently, he established a DVT US clinic pathway for local primary care clinicians to utilize as an adjunct to radiological services. He also runs a yearly Intro to POCUS workshop series for PA students and monthly primary care POCUS workshops for FM clerkship medical students. Previously, he has taught with Global Ultrasound Institute. Nationally, he is part of the STFM POCUS task force.

Dr. Hui is a member of the American Academy of Family Physicians and Society of Teachers of Family Medicine.

He speaks English fluently and Cantonese with limited working proficiency.
