#### BIO

Bio

Friso Achterberg is currently a Visiting Researcher at the Molecular Imaging Program at Stanford (MIPS) and the department of Radiology. Friso received his B.Sc, M.Sc. and MD degree in Medicine from the university of Leiden in the Netherlands in 2014 and 2017 respectively. After acquiring his MD degree, he started working as a resident (not in training) at the department of surgery at the The Hague Medical Center. In October 2017 he started his MD Ph.D. program at the department for Oncological Surgery under the supervision of doctor Alexander L. Vahrmeijer, head of the Image-Guided Surgery Group at the Leiden University Medical Center in The Netherlands.

In April 2018 he was co-responsible for organizing an Academy Colloquium titled: 'Precision Surgery by Tumor Targeted Molecular Imaging: current challenges in the translation to clinical practice'. The Colloquium was organized to discuss the current challenges in the field of image-guided surgery with experts of the field.

#### Professional education

- Doctor of Medicine, Leiden University Medical Center (2017)
- Master of Science, Leiden University Medical Center (2017)
- Bachelor of Science, Leiden University Medical Center (2014)
