Bio

BIO

Dr. Baik is Assistant Professor of Otolaryngology – Head & Neck Surgery at Stanford University. He provides comprehensive surgical care for patients with head and neck cancer, both as an ablative and reconstructive surgeon. His clinical interests include oral cavity cancer, complex skin cancer, microvascular reconstruction and the diagnosis and management of nodal metastasis. With his background in fluorescence imaging, Dr. Baik's research focuses on surgical navigation using targeted agents to improve tumor margin assessment and the detection of nodal metastasis, and he currently leads several clinical trials to translate novel imaging techniques.

Dr. Baik graduated with honors in Biology at the University of Pennsylvania and received his medical degree at UC San Diego. After completing his Otolaryngology residency at the University of Washington, he pursued advanced training in Head and Neck Oncology & Reconstructive Surgery at Mount Sinai Beth Israel Hospital in New York City. He is a board-certified by the American Board of Otolaryngology, and a member of the American Head and Neck Society, American Academy of Otolaryngology – Head and Neck Surgery, and a fellow of the American College of Surgeons.

CLINICAL FOCUS

- Head and Neck cancer
- Microvascular Reconstruction of the Head and Neck
- Skin cancer
- Melanoma
- Otolaryngology

ACADEMIC APPOINTMENTS

- Assistant Professor - University Medical Line, Otolaryngology (Head and Neck Surgery)

- Member, Wu Tsai Human Performance Alliance

PROFESSIONAL EDUCATION

- Medical Education: University of California San Diego School of Medicine (2011) CA
- Board Certification: Otolaryngology, American Board of Otolaryngology (2018)
- Fellowship, Mount Sinai Beth Israel Hospital, New York , Head and Neck Oncologic & Reconstructive Surgery (2018)
- Residency, University of Washington , Otolaryngology - Head and Neck Surgery (2017)
- MD, University of California, San Diego , Medicine (2011)
- MAS, University of California, San Diego , Clinical research (2010)
- BA, University of Pennsylvania , Biology (2005)

Research & Scholarship

CLINICAL TRIALS

- Comparing Sentinel Lymph Node (SLN) Biopsy With Standard Neck Dissection for Patients With Early-Stage Oral Cavity Cancer, Recruiting
- Panitumumab-IRDye800 Compared to Sentinel Node Biopsy and (Selective) Neck Dissection in Identifying Metastatic Lymph Nodes in Patients With Head&Neck Cancer, Not Recruiting
- Study Evaluating 111In-Panitumumab for Nodal Staging in Head and Neck Cancer, Not Recruiting
- Study Evaluating Zr-Panitumumab for Assessment of Suspected Metastatic Lesions on 18F-FDG-PET/CT in Head and Neck Squamous Cell Carcinoma, Not Recruiting
