Hakeem Jefferson

Assistant Professor of Political Science

 Curriculum Vitae available Online

Bio

BIO

I am an assistant professor of political science at Stanford University where I am also a faculty affiliate with the Center for Comparative Studies in Race and Ethnicity and the Stanford Center for American Democracy. I received my PhD in political science from the University of Michigan and a Bachelor of Arts degree in political science and African American Studies from the University of South Carolina.

My research focuses primarily on the role identity plays in structuring political attitudes and behaviors in the U.S. I am especially interested in understanding how stigma shapes the politics of Black Americans, particularly as it relates to group members' support for racialized punitive social policies. In other research projects, I examine the psychological and social roots of the racial divide in Americans' reactions to officer-involved shootings and work to evaluate the meaningfulness of key political concepts, like ideological identification, among Black Americans.

My dissertation, "Policing Norms: Punishment and the Politics of Respectability Among Black Americans," was a co-winner of the 2020 Best Dissertation Award from the Political Psychology Section of the American Political Science Association.

ACADEMIC APPOINTMENTS

- Assistant Professor, Political Science

PROGRAM AFFILIATIONS

- Public Policy

Teaching

COURSES

2020-21

- Identity Politics 101: POLISCI 13N (Aut)
