## Sean Aric Merrill

Postdoctoral Research Fellow, Molecular and Cellular Physiology

### Publications

---

#### PUBLICATIONS

- **Casein Kinase 1 delta Stabilizes Mature Axons by Inhibiting Transcription Termination of Ankyrin** *DEVELOPMENTAL CELL*  
LaBella, M. L., Hujber, E. J., Moore, K. A., Rawson, R. L., Merrill, S. A., Allaire, P. D., Ailion, M., Hollien, J., Bastiani, M. J., Jorgensen, E. M.  
2020; 52 (1): 88-+
- **Neurologin-4 Regulates Excitatory Synaptic Transmission in Human Neurons.** *Neuron*  
Marro, S. G., Chanda, S., Yang, N., Janas, J. A., Valperga, G., Trotter, J., Zhou, B., Merrill, S., Yousif, I., Shelby, H., Vogel, H., Kalani, M. Y., Sudhof, et al  
2019
- **gamma-Neurexin and Frizzled Mediate Parallel Synapse Assembly Pathways Antagonized by Receptor Endocytosis.** *Neuron*  
Kurshan, P. T., Merrill, S. A., Dong, Y., Ding, C., Hammarlund, M., Bai, J., Jorgensen, E. M., Shen, K.  
2018
- **Two Clathrin Adaptor Protein Complexes Instruct Axon-Dendrite Polarity** *NEURON*  
Li, P., Merrill, S. A., Jorgensen, E. M., Shen, K.  
2016; 90 (3): 564-580
