

Stanford

Rachel Allison Ungar

Postdoctoral Scholar, Biomedical Ethics

Bio

BIO

Rachel Ungar, PhD, is a Postdoctoral Fellow in the Stanford Training Program in ELSI Research (T32) at the Stanford Center for Biomedical Ethics. Her graduate research was in computational genomics focused on multiomics approaches in Stephen Montgomery's lab. She was an active member of the Undiagnosed Diseases Network, and GREGoR rare disease consortia focused on transcriptomic methods and data standards. She also examined the impact of rare variants and sex on the X-chromosome. During her PhD, she co-created and taught a course expanding ethics education to bioscientists (GENE 220: Genetics, Ethics, and Society) and evaluated its impact. During her postdoc, Rachel aims to use her background to integrate genomics and ethics, beginning with ethical considerations for rare and undiagnosed disorders. Rachel received her PhD in Genetics at Stanford. She earned her Bachelor of Science in Biology at the University of Arkansas with minors in mathematics and computer science.

PROFESSIONAL EDUCATION

- Doctor of Philosophy, Stanford University , GENE-PHD (2024)
- BS, University of Arkansas , Biology (2018)
- PhD, Stanford University , Genetics (2024)

Teaching

COURSES

2022-23

- Introduction to Genetics, Ethics, and Society: GENE 220 (Spr)

Publications

PUBLICATIONS

- **Impact of genome build on RNA-seq interpretation and diagnostics.** *American journal of human genetics*
Ungar, R. A., Goddard, P. C., Jensen, T. D., Degalez, F., Smith, K. S., Jin, C. A., Bonner, D. E., Bernstein, J. A., Wheeler, M. T., Montgomery, S. B.
2024
- **Loss of function of FAM177A1, a Golgi complex localized protein, causes a novel neurodevelopmental disorder.** *Genetics in medicine : official journal of the American College of Medical Genetics*
Kohler, J. N., Legro, N. R., Baldrige, D., Shin, J., Bowman, A., Ugur, B., Jackstadt, M. M., Shriver, L. P., Patti, G. J., Zhang, B., Feng, W., McAdow, A. R., Goddard, et al
2024: 101166
- **Increasing equity in science requires better ethics training: A course by trainees, for trainees.** *Cell genomics*
