## Marianna Yunjia Zhang

Ph.D. Student in Psychology, admitted Autumn 2018

### Bio

---

#### BIO

I'm a developmental cognitive scientist studying how children reason about social categories, social differences, and social disparities. I work on identifying ways of thinking that support social disparities, tracing back their origins in development, and finding ways to disrupt them.

#### EDUCATION AND CERTIFICATIONS

- BA, The University of Chicago , Psychology (2018)
