

Stanford

Danish Khan

Postdoctoral Research Fellow, Biochemistry

Bio

BIO

Danish is a post-doc in the Brandman and Rohatgi groups at the Dept. of Biochemistry. His research focuses on understanding the mechanism of eukaryotic protein quality control pathways. Before joining Stanford, Danish earned his PhD from Texas A&M University, College Station, TX where he studied chemical inhibition of a lipid signaling protein and discovered a novel heme-binding lipid transfer protein. He also holds a Masters degree in Biotechnology from Banaras Hindu University in India, and a Bachelors degree from Presidency College, Kolkata (University of Calcutta), India.

PROFESSIONAL EDUCATION

- Doctor of Philosophy, Texas A&M University College Station (2018)
- Master of Science, Banaras Hindu University (2013)
- Bachelor of Science, University Of Calcutta (2010)

STANFORD ADVISORS

- Onn Brandman, Postdoctoral Faculty Sponsor
- Onn Brandman, Postdoctoral Research Mentor
