Doran Triggs

Clinical Rsch Mgr, Med/Stanford Center for Clinical Research

Bio

BIO

Doran Triggs is a Clinical Research Manager at the Stanford Center for Clinical Research and works within the SCCR Trial Monitoring and Quality and Compliance Team.

Doran received a bachelor's degree in Cellular and Molecular Biology from Stephen F. Austin State University. Doran has focused her training on regulatory compliance and study data monitoring over her 6 years in Clinical Research. Doran brings experience coordinating and monitoring a wide variety of clinical research studies, including Gastritis and/or Eosinophilic Gastroenteritis, Celiac Disease, Women's Heart Health, Peripheral Artery Disease, Heart Failure, Critical Limb Ischemia, and Digital Health and Patient registry solutions in Vascular disease patients. Most recently, she helped develop and manages SCCR's monitoring program as well as monitor multiple trials within SCCR and other departments across the SOM.
