Bio

BIO

Jessica E. Gonzalez, MSW is the School Mental Health Coordinator for the Mental Health Technology Transfer Center (MHTTC) Network Coordinating Office (NCO). The MHTTC NCO is part of the Center for Behavioral Health Services and Implementation Research (CBHSIR) in the Department of Psychiatry and Behavioral Sciences at Stanford University School of Medicine. Jessica is coordinating the work of 12 centers that provide training and technical assistance to the mental health and school mental health workforce to increase the use of evidence-based mental health prevention, treatment, and recovery support services for students across the United States.

Jessica has worked in the community as a social worker providing mental health services in school and outpatient clinic settings to children and adolescents of diverse socioeconomic, cultural and ethnic backgrounds. In addition, she has over 5 years of experience in project management support and coordination for research and evaluation in the areas of early childhood learning and development, special education, post-secondary education attainment, and delivery of school mental health services. Jessica has also worked for several high school and college programs in the area seeking to improve educational outcomes for first-generation, low-income students of color.
