

Stanford

Patrick DeMoss

- Affiliate, Dean's Office Operations - Dean Other
- Fellow in Pediatrics - Hematology & Oncology

Bio

BIO

Pat DeMoss completed his undergraduate studies at Indiana University in Bloomington, IN and then his medical degree at the IU School of Medicine. He completed a pediatrics residency at the University of Mississippi in Jackson, MS and then a transfusion medicine/blood banking fellowship at Thomas Jefferson University in Philadelphia, PA.

CLINICAL FOCUS

- Fellow
- pediatric hematology and oncology

PROFESSIONAL EDUCATION

- Fellow, Thomas Jefferson University Hospital , Transfusion Medicine (2019)
- Resident, University of Mississippi Medical Center , Pediatrics (2018)
- M.D., Indiana University School of Medicine (2015)
- B.A., Indiana University (2008)

PERSONAL INTERESTS

Snowboarding, rugby, cheese pizza, and reading.

Research & Scholarship

CURRENT RESEARCH AND SCHOLARLY INTERESTS

I work in the Davis Lab trying to characterize the tumor microenvironment of Ewing Sarcoma, with an eventual goal to better understand immune interactions in hopes of improving immunotherapy for these tumors.

I am also interested in the history of medicine, specifically viewing current diseases through a historical prism, such as reading original accounts of diseases, laboratory results, and study protocols. Medicine is naturally a historical discipline: as knowledge accumulates, so medicine as a field progresses. Furthermore, by studying medicine in a historical context, I believe it enriches our current practice by connecting us with our predecessor physicians.

LAB AFFILIATIONS

- Kara Davis, The Davis Lab (7/24/2020)
