- **Pediatric Gastroenterology**

730 Welch Rd 2nd Flr

Palo Alto, CA 94304

Tel (650) 491-6686

Fax (650) 721-3822

Bio

BIO

My clinical and research interests are in neonatal cholestatic liver diseases, including biliary atresia and fatty liver disease. I'm also highly experienced in liver transplant care, with a particular focus on teen and transition of care.

In addition to my clinical and research work, I'm deeply committed to medical education and patient education. I believe that knowledge is power, and I strive to empower my patients and their families with the resources and information they need to make informed decisions about their care.

As a physician, I'm dedicated to providing the highest level of care to my patients and their families. I believe that every child deserves the best possible chance at a healthy and fulfilling life, and I'm honored to play a role in helping them achieve that goal.

CLINICAL FOCUS

- Pediatric Hepatology
- Pediatric Transplant Hepatology
