## Andreas Schlueter

Postdoctoral Research Fellow, Computer Science

### Bio

---

#### BIO

I am a postdoc and Schmidt Science Fellow in the Ermon Lab, affiliated with the Sustain Lab. Using computational methods, I want to help to alleviate global hunger. I work on models improving the prediction of crop yields in Africa, which depend on periods of drought or enhanced rainfall.

Please visit my personal website for more information: [www.andreasschlueter.com](http://www.andreasschlueter.com)

#### PROFESSIONAL EDUCATION

- PhD, Karlsruhe Institute of Technology, Germany , Atmospheric Physics (2019)
- MSc, Georg-August-University Goettingen, Germany , Tropical and International Forestry (2015)
- BSc, Gutenberg University Mainz, Germany , Meteorology (2012)

#### STANFORD ADVISORS

- Stefano Ermon, Postdoctoral Faculty Sponsor
