

Benjamin Davies Horne

Adjunct Clinical Associate Professor, Medicine - Cardiovascular Medicine

Bio

BIO

Dr. Benjamin Horne is an Adjunct Clinical Associate Professor who is based at the Intermountain Medical Center Heart Institute in Salt Lake City, UT, where he serves as the Director of Cardiovascular and Genetic Epidemiology. His doctoral training (PhD) in genetic epidemiology was completed at the University of Utah and he holds masters degrees in public health and in biostatistics. Dr. Horne is a fellow of the American Heart Association, a fellow of the American College of Cardiology, and a member of the American Society of Human Genetics. Dr. Horne's research focuses on population health and precision medicine, including evaluating the genetic epidemiology of heart diseases, developing and implementing clinical decision tools for personalizing medical care, discovering the human health effects of intermittent fasting, and studying the influences of air pollution on major adverse health events.
