Andrew Berger

IT Systems Analyst 3, Library Technology

Bio

BIO

I am the Repository Manager for the Stanford Digital Repository (SDR). I work on the Product and Service Management Team in the Digital Library Systems and Services unit. In my capacity as repository manager, I am responsible for:

- Monitoring the SDR to ensure that it is operating smoothly
- Outreach, training, and documentation for SDR users
- Working with software development teams and operations staff to maintain and add functionality to the SDR
