

Stanford

William Scott

Ph.D. Student in Environment and Resources

Bio

BIO

William Scott (he/him) is a PhD Candidate at Stanford University in the Emmett Interdisciplinary Program in Environment and Resources (E-IPER). His research focuses on environmental economics, climate change, public policy, and energy systems.

Prior to coming Stanford, William worked at the University of Ottawa's Smart Prosperity Institute (Canada) a research institute focused on improving public policy for environmental and economic outcomes. He also worked with United Nations Environment in the Economy and Trade Branch to support emerging economies seeking to integrate sustainability into their national development strategies. William holds a Masters of Environment from Griffith University in Australia and a BA from the University of Western Ontario in Canada, where he also played varsity football.
