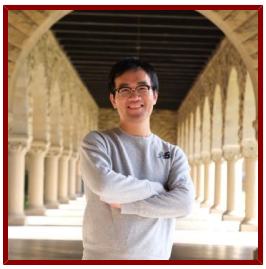
Stanford



Yuxuan Chen

Postdoctoral Scholar, Materials Science and Engineering

Publications

PUBLICATIONS

- **Upcycling nanoscale fragments in industrial waste liquids for aqueous battery electrolytes** *NATURE CHEMICAL ENGINEERING*
  Chi, X., Li, Y., Zheng, Q., Zhang, P., Mao, H., Li, J., Zhang, G., Wang, J., Chen, Z., Su, H., Ravi, A., Cai, A., Liu, et al
  2026
- **Suspension Electrolyte for Protecting Aqueous Zinc Batteries From Calendar Aging** *ADVANCED ENERGY MATERIALS*
  Wang, J., Guan, X., Su, H., Li, J., Zhang, P., Chi, X., Li, Y., Chen, Y., Chen, Z., Jagadeesan, S., Ravi, A., Mao, H., Kim, et al
  2026
- **High-Entropy Second Solvation Shell by Anion Diversity for Aqueous Zinc-Ion Electrolytes** *ACS ENERGY LETTERS*
  Su, H., Hinks, E., Chen, Y., Kim, S., Li, Y., Chi, X., Zhang, P., Wang, J., Choi, I., Mao, H., Huang, I., Xu, X., Chen, et al
  2026
- **Membrane-free electrochemical production of acid and base solutions capable of processing ultramafic rocks.** *Nature communications*
  Charnay, B. P., Chen, Y., Misleh, J. W., Wright, J. G., Agarwal, R. G., Sauvé, E. R., Toh, W. L., Surendranath, Y., Kanan, M. W.
  2025; 16 (1): 9759
- **Thermal Ca2+/Mg2+ exchange reactions to synthesize CO2 removal materials.** *Nature*
  Chen, Y., Kanan, M. W.
  2025
- **Hypophosphite addition to alkenes under solvent-free and non-acidic aqueous conditions.** *Chemical communications (Cambridge, England)*
  Huang, Z., Chen, Y., Kanan, M. W.
  1800
- **Electro-Descriptors for the Performance Prediction of Electro-Organic Synthesis** *ANGEWANDTE CHEMIE-INTERNATIONAL EDITION*
  Chen, Y., Tian, B., Cheng, Z., Li, X., Huang, M., Sun, Y., Liu, S., Cheng, X., Li, S., Ding, M.
  2021; 60 (8): 4199-4207
