Professional Overview

BIO

Dr. Justin Lee specializes in the diagnosis and management of various heart conditions such as coronary artery disease, valvular heart disease, abnormal heart rhythm, and congestive heart failure. He believes in patient-centered care in which patients and their family serve as active partners in the decision-making process. He champions teamwork. By joining Stanford Health Care, he and his team strive to make a positive difference in people's life. Dr. Justin Lee is experienced in serving both American and Asian patient populations. After he completed his cardiology training at University of Washington, he was elected Fellow of American College of Cardiology, and is committed to promote evidence-based cardiology.
