Bio

BIO

Dr. Kunj Sheth is a pediatric urologist who focuses on minimally-invasive approaches to children's surgery and treatment of complex patients. She is currently in the Biodesign Faculty Fellows Program. Her research focuses on the design and development of health technology specifically for children. She is also working to improve surgical education for residents through 3-dimensional modeling for minimally-invasive surgery. She is a part of the UCSF-Stanford Pediatric Device Consortium. Kunj graduated from Northwestern University with an undergraduate degree in biomedical engineering. She attended Northwestern University Feinberg School of Medicine and completed a Urology residency training program at the University of Texas Southwestern Medical Center. She then completed a fellowship in Pediatric Urology at Baylor College of Medicine - Texas Children's Hospital.
