

Steven Chan, MD MBA

- Clinical Associate Professor (Affiliated), Psych/Public Mental Health & Population Sciences
- Staff, Psychiatry and Behavioral Sciences

Bio

BIO

Dr. Steven Chan is a Faculty Co-Director at Stanford Frontier Technology Lab, a member of Stanford Psychiatry's TechHub Leadership Committee, faculty with the Stanford Addiction Medicine Fellowship, and a clinical educator caring for patients with substance use disorders (SUD) and addictions.

Dr. Chan is a clinical informaticist, addiction medicine physician, and psychiatrist. He is a clinical associate professor affiliated with the Stanford University School of Medicine, and Immediate Past Chair of the Committee on Innovation at the American Psychiatric Association. Dr. Chan is a sought-after national speaker whose ideas, thoughts, and research have been featured at Google headquarters, JAMA, Telemedicine and e-Health, JMIR (Journal of Medical Internet Research), Wired, PBS, and NPR Ideastream. He serves as Chief Technology Officer and co-founder of AsyncHealth — a University of California-backed digital mental health startup supported by Berkeley SkyDeck PAD-13 and the National Science Foundation's Innovation Corps (NSF i-Corps) — and writes at both [@stevenchanMD](#) and [@mpowerhacks](#).
