

Mark Patrick McVay

- Staff, Stanford Doerr School of Sustainability - Dean's Office
- Temp - Non-Exempt, Stanford Doerr School of Sustainability - Dean's Office

Bio

BIO

Mark joined Stanford Energy in January of 2020 to focus on business model innovation supporting energy transformation. He is working with students and faculty throughout Stanford on efforts to create solutions for Carbon Reduction and Sustainability goals in large organizations. He is now working with Doerr School of Sustainability on external relations. Mark has spent his career in energy starting as a nuclear power engineer aboard an aircraft carrier. He most recently helped build and sell the energy analytics firm PowerAdvocate and currently serves on the boards of several energy related small companies. Mark earned an MBA from the Stanford GSB and an MS from the School of Engineering. He has a BS from the US Naval Academy.
