MC 5768

Stanford, CA 94305

Tel (650) 723-6576

Fax (650) 723-0121

Bio

BIO

Dr. Yiadom is an Associate Professor of Emergency Medicine at Stanford University and researcher with expertise in emergency care clinical operations and timely emergency care delivery. She was first trained in health care policy in Princeton University's School of Public and International Affairs. She subsequently worked as a healthcare industry management consultant here in New York City for CSC Global Health Solutions Group, and was the Dean's Office Chief of Staff at Drexel Medical School in Philadelphia. She completed her medical education at Robert Wood Johnson Medical School, a Masters in Public Health (MPH) at Harvard with additional health policy training from Johns Hopkins. She subsequently did residency at Mass General and Brigham and Women's Hospitals' Harvard affiliated program, and completed a Masters of Science in Clinical Investigation (MSCI) at Vanderbilt University.

Dr. Yiadom is the Principal Investigator for the Stanford Emergency Care Health Services Research Data Coordinating Center (HSR-DCC). Her research focuses on applications of evidence-based medicine to optimize clinical operations to target patient pathophysiology for time-sensitive conditions. STEMI is her prototype disease. Current work includes refining clinical process, using informatics to support evidence-based practice, and performance measurement to identify real-world care improvement opportunities. Her research is supported by the National Heart Lung and Blood Institute (NHLBI), and ED Benchmarking Alliance. She is the Founding Director of the Emergency Department Operations Study Group (EDOSG), and on the Board of Directors for the Emergency Department Benchmarking Alliance (EDBA). Her interested in population health via emergency care have extended to Haiti, Guyana and Ghana. She and her husband Ryan Van Cleave (Airforce veteran, and Northern California native) have 3 children: Marialex (age 17), Victoria (age 14), and Jasmine (age 5).

CLINICAL FOCUS

- Emergency Medicine
- Clinical Operations
- Evidence-based clinical practice
- Time-sensitive emergency care delivery
- Health System Operations

ACADEMIC APPOINTMENTS

- Associate Professor - Med Center Line, Emergency Medicine

PROFESSIONAL EDUCATION

- Medical Education: Rutgers Robert Wood Johnson Medical School (2007) NJ
- MPH, Harvard School of Public Health , Population Health (2007)
- Residency: Harvard Affiliated Emergency Medicine (2011) MA
- Board Certification: Emergency Medicine, American Board of Emergency Medicine (2012)
- MSCI, Vanderbilt University , Clinical Investigation (2018)
