

Jennifer Ni

Adjunct Clinical Assistant Professor, Pediatrics - Endocrinology

CLINICAL OFFICE (PRIMARY)

- **Pediatric Endocrinology**

106 La Casa Via Ste 100

Walnut Creek, CA 94598

Tel (844) 733-2762 Fax (650) 725-7578

Bio

BIO

I grew up mainly in the Bay Area of California, attending UC Berkeley for undergraduate (Go Bears!) with a major in Bioengineering. After a gap year working at a biotech start up, I traveled to the East Coast for medical school at the University of Pittsburgh, and then back to my birth state of Texas for residency at UT Southwestern. During my experiences in medical school and residency, I discovered that I enjoyed the logic of thinking through signaling pathways to understand the pathophysiology of endocrine disorders. In the future, I hope to combine my background in engineering with my passion for medicine to advance the field of endocrinology, especially in diabetes management. I am very excited to return to the Bay Area for fellowship in Pediatric Endocrinology. Outside of the hospital, I enjoy baking sweet treats, trying new restaurants, and running.

CLINICAL FOCUS

- Pediatric Endocrinology

PROFESSIONAL EDUCATION

- Board Certification: Pediatric Endocrinology, American Board of Pediatrics (2023)
- Fellowship: Stanford University Pediatric Endocrinology Fellowship (2023) CA
- Board Certification: Pediatrics, American Board of Pediatrics (2020)
- Residency: UT Southwestern Medical Center (2020) TX
- Medical Education: University of Pittsburgh Office of the Registrar (2017) PA
