## Bio

### BIO

Dr. Moskatel is internist with fellowship training in headache medicine and board certification in internal medicine. He is a clinical assistant professor in the Stanford University School of Medicine Department of Neurology, Division of Headache.

His practice at the Stanford Health Care Headache Clinic focuses on the diagnosis and treatment of all forms of headache. Patients come to him seeking relief from migraine, cluster, and tension headaches.

Dr. Moskatel teaches headache medicine to medical students and supervises resident physicians in the Stanford Health Care Headache Clinic.

He conducts research into migraine and diet, medication overuse headache, and long-lasting headache after COVID-19. He has written articles on these and other topics. They have appeared in peer-reviewed journals such as Headache, Current Neurology and Neuroscience Reports, Annals of Headache Medicine, and Pain Medicine.

Dr. Moskatel has reviewed the content of articles written by other doctors for the journals Headache and Pain Medicine. The publication Annals of Internal Medicine awarded him a letter of commendation as outstanding reviewer.

He has co-authored textbook chapters on migraine and diet and on headache treatments. He has presented his research discoveries to his peers at meetings of the World Headache Society and other organizations.

Dr. Moskatel volunteers his time to serve both professional and community organizations. He speaks English and Hebrew fluently and reads French.
