

Karthikeshwar Kasirajan (Kasi)

Clinical Professor, Surgery - Vascular Surgery

CLINICAL OFFICES

- **ValleyCare Heart and Vascular Clinics**

5565 W Las Positas Blvd Ste 300

Pleasanton, CA 94588

Tel (925) 278-7010 **Fax** (925) 278-7015

- **Vascular Care Clinic in Emeryville**

5800 Hollis St

Emeryville, CA 94608

Tel (510) 806-2100 **Fax** (510) 806-2545

Bio

BIO

Dr. Kasirajan is a board-certified, fellowship-trained vascular surgeon. Also known as Dr. Kasi, he is a clinical professor of vascular surgery at Stanford University School of Medicine.

Dr. Kasirajan preserves limbs, facilitates access to dialysis, and helps his patients manage conditions such as aneurysms, varicose veins, thoracic outlet syndrome, and deep vein thrombosis. Many of his limb preservation patients smoke, have diabetes, or are experiencing renal failure. Dr. Kasirajan's experience also centers around the treatment of aneurysms and prevention of strokes.

In all cases, his goal is to provide either noninvasive or minimally invasive management whenever possible. He performs open surgery only when it is the best option.

Dr. Kasirajan treats many patients with stents and stent grafts, which can shorten hospital stays and recovery times.

Dr. Kasirajan (Kasi) receives referrals of patients from primary care physicians, nephrologists, podiatrists, cardiologists, woundcare specialists, diabetologists, neurologists, and other specialists. He welcomes referrals as early as possible, ideally before patients become symptomatic. A strong proponent of doing early screening for peripheral artery disease, Dr. Kasirajan advocates for the use of the ankle-brachial index (ABI) in routine physical examinations. When providers detect an imbalance between leg and arm blood pressure, Dr. Kasirajan can help create customized strategies to address the cause before the problem worsens.

In addition to offering excellent vascular care to the community, Dr. Kasirajan joined Stanford to continue pursuing his research interests. He has conducted research into advances in minimally invasive procedures for stroke prevention and for aneurysm management. His research has also focused on how to improve surgery

outcomes to help patients suffering from peripheral vascular disease. Dr. Kasirajan has been the investigator in over 40 multicenter studies involving new stent graphs, thrombectomy catheters, and other advances in endovascular technology.

Dr. Kasirajan has made more than 100 presentations worldwide on minimally invasive vascular surgery techniques and preventive care in the vascular patient. He has spoken at multiple conferences including the Society for Vascular Surgery, Peripheral Vascular Society, and the South Asian American Vascular Society. He has earned numerous honors for his academic achievements, including the prestigious Alpha Omega Alpha award for medical student and resident education.

As the author of more than 120 journal articles, Dr. Kasirajan's work has appeared in the Journal of Vascular Surgery, Endovascular Today, Pharmacogenomics Journal, Catheter Cardiovascular Intervention, and many other publications. He also has authored 20 book chapters in textbooks including Medical Management of the Surgical Patient 5th Edition, Advances in Phlebology and Venus Surgery Volume 1, Current Therapy in Vascular Surgery, Mastery of Surgery, and many more.

Dr. Kasirajan has served on the editorial boards of the Journal of Endovascular Therapy, Annals of Vascular Surgery, International Journal of Angiology, and other publications.

CLINICAL FOCUS

- Vascular Surgery
- Abdominal Aortic Aneurysms
- Thoracic Aortic Aneurysms
- Thoracic Outlet Syndrome
- Peripheral Arterial Disease
- Deep vein thrombosis
- Carotid Artery Stenosis
- Limb Salvage
- Dialysis access creation

ACADEMIC APPOINTMENTS

- Clinical Professor, Surgery - Vascular Surgery

ADMINISTRATIVE APPOINTMENTS

- Clinical Professor of Surgery, Stanford, (2020- present)

HONORS AND AWARDS

- Alpha Omega Alpha, AOA

BOARDS, ADVISORY COMMITTEES, PROFESSIONAL ORGANIZATIONS

- Member, Society for vascular Surgery (2003 - present)

PROFESSIONAL EDUCATION

- Fellowship: Cleveland Clinic Foundation Hospital (2000) OH
- Board Certification: Vascular Surgery, American Board of Surgery (2001)
- Residency: Western Reserve Care System (1998) OH
- Residency: Lincoln Medical and Mental Health Center General Surgery Residency (1994) NY
- Medical Education: Madras Medical College (1991) India
