Professional Overview

BIO

Heather Boulting, MSN, RN, ACNP-BC is a Nurse Practitioner with thoracic surgical oncology, specializing in benign and malignant conditions in the lung, chest wall, esophagus and mediastinum. Prior to joining Stanford, she worked as a Trauma and Acute Care Surgery Nurse Practitioner, in a busy level II trauma center. Her early career was focused on emergency medicine with Heather spending seven years working pre-hospital as an Emergency Medical Technician on a 9-1-1 ambulance, followed by eight years as a trauma and emergency department RN.
