## Andrew Mosser Hong

- Masters Student in Management Science and Engineering, admitted Autumn 2022
- Peer Advisor, Statistics
- Stanford Student Employee, Statistics

### Bio

---

#### BIO

I am a third-year undergraduate and first-year master's student studying at the intersection of American political science and computer science, statistics, and data science. I have conducted research applying machine learning and statistical models on voting and election trends in the US at Stanford Engineering School, Tufts University's MGGG Redistricting Lab, political campaigns, PACs, nonprofits, and consulting firms. I aim to make our democracy fairer and more (racially, socioeconomically, politically, etc.) representative of the American public.

MS: Management Science & Engineering, concentration in computational social sciences

BA: Data Science & Social Systems, concentration in socio-political behavior analysis

#### CURRENT ROLE AT STANFORD

Masters student in Management Science & Engineering. Undergraduate student in Data Science. Peer Advisor in Data Science. Resident Assistant.

#### SERVICE, VOLUNTEER, AND COMMUNITY WORK

- Data Analyst
- Policy Analyst

### Professional

---

#### PROFESSIONAL INTERESTS

Looking for professional opportunities in progressive, Democratic, and nonpartisan political data analytics and engineering. I use data to understand social-political behavior and improve tech on the left. I do freelance political data journalism & consulting for campaigns, consulting firms, and newspapers. Inquiries: [andmhong@gmail.com](mailto:andmhong@gmail.com)

I bring 5+ years of experience in political consulting, local/state & federal campaigns, research, nonprofits, coalitions, policy, lobbying, and activism. I was brought into this work as a grassroots organizer from redlined South Seattle.
