

Jamie Tung, MD

- Clinical Assistant Professor, Surgery - General Surgery
- Affiliate, Surgery - General Surgery

Bio

BIO

Dr. Tung is a fellowship-trained surgeon in the Stanford Health Care Chest Wall Surgery Program. He is a clinical instructor in the Stanford Medicine Department of Surgery.

His areas of expertise include trauma, general, and critical care surgery. He excels at the surgical treatment of chest wall injury, including stabilization of rib fractures.

In his research, Dr. Tung has investigated gastrostomy tube complications. He has participated in the American Association for the Surgery of Trauma study of the surgical treatment of liver injury. Other research interests include massive transfusion strategies and education regarding pre-hospital trauma management.

Dr. Tung has co-authored articles on complications of hernia surgery and other topics. His work has been published in The Journal of Trauma and Acute Care Surgery and Case Reports in Surgery. He also co-authored a chapter on chest wall surgery in the Textbook of Emergency General Surgery.

Dr. Tung has made presentations at the American College of Surgeons Annual Meeting, Academic Surgical Congress, and other conferences. Topics include massive transfusions, prehospital trauma care, burn resuscitation, and complications of percutaneous endoscopic gastrostomy (PEG) in trauma patients.

He is a member of the American College of Surgeons, Chest Wall Injury Society, Eastern Association for the Surgery of Trauma, and Association for Academic Surgeons. He is a member of the Stanford Medicine Trauma Committee and other committees. He has worked as and is a certified emergency medical technician (EMT) as well as a tactical physician. He also has served as a "Stop the Bleed" instructor with Stanford Medicine as well as with other institutions where he practiced previously.

Dr. Tung is fluent in English and Cantonese. He is proficient in Mandarin.
