Bio

BIO

Aimmon is a healthcare and technology leader with over 20 years of experience supporting teams at Accenture, Kaiser Permanente, and Stanford Health Care. He currently serves as the Executive IT Director of Revenue Cycle and Population Health Systems at Stanford Health Care where he helps create and sustain financial value, employee engagement, and patient experience improvement.

Aimmon holds a MS in Clinical Informatics Management from Stanford, a MS in Healthcare Administration from California State University East Bay, and a BS in Business Administration from Santa Clara University.

He is excited about the opportunities for cost, quality, and access improvement in healthcare, and seeks to create meaningful and sustained change with the use of technology, organizational management, and financial tools.
