

Jasmine M. Cox

Ph.D. Student in Electrical Engineering, admitted Autumn 2020

Bio

BIO

Jasmine Cox is a PhD candidate in Electrical Engineering. She received her B.S. in Electrical Engineering with a minor in Applied Mathematics from Boise State University in 2020. During her undergraduate academic career, Jasmine was a Ronald E. McNair Scholar and a member of the Advanced Nanomaterials and Manufacturing Laboratory focusing on additive manufacturing of flexible hybrid electronics. Her current research as a member of Prof. Debbie G. Senesky's group, EXtreme Environment Microsystems Lab (XLab), explores the synthesis, fabrication, and characterization of devices and materials in extreme environments that can be found in space.

HONORS AND AWARDS

- Technology and Racial Equity Graduate Fellowship, Stanford Center for Comparative Studies in Race and Ethnicity (Autumn 2021 - Spring 2022)
- Enhancing Diversity in Graduate Education Doctoral Fellowship, Stanford Vice Provost for Graduate Education (Autumn 2020 - Present)

EDUCATION AND CERTIFICATIONS

- MS, Stanford University , Electrical Engineering (2022)
- BS, Boise State University , Electrical Engineering, Minor in Applied Mathematics (2020)
- AA, Idaho State University , Arts and Letters, Early College Program (2016)

SERVICE, VOLUNTEER, AND COMMUNITY WORK

- VPUE STEM Fellows Mentor (8/1/2021)
- Future Advancers of Science and Technology (FAST) Mentor (August 2021 - April 2022)

Research & Scholarship

LAB AFFILIATIONS

- Debbie Senesky, EXtreme Environment Microsystems Laboratory (XLab) (9/30/2020)
