**Fax** (650) 723-8331

### Bio

---

#### BIO

Dr. Aileen Whyte, a licensed psychologist in California, brings over two decades of specialized expertise to the treatment of eating disorders in young people. Beyond her clinical practice, Dr. Whyte actively works on implementing strategies to expand the reach of evidence-based treatments for eating disorders, aiming to make these best-practice interventions more accessible to a wider population.

Dr Whyte serves as the Director of the Stanford Outpatient Child & Adolescent Eating Disorders Clinic, where she provides treatment to young people with eating disorders and provides supervision to psychology and psychiatry fellows. Dr Whyte is a certified practitioner and consultant in Family-Based Treatment (FBT) for eating disorders. She serves as a study therapist in NIMH-sponsored randomized clinical trials focused on examining FBT and related adaptations.

In addition to her clinical responsibilities, Dr. Whyte has led multiple seminars, workshops, and training sessions dedicated to the treatment of eating disorders. She provides ongoing training and consultation in FBT, reaching diverse audiences, including multidisciplinary clinicians, psychologists, and psychiatrists, within the US and internationally.

Dr. Whyte earned her PhD in Clinical Psychology from the New School for Social Research in New York. Her research and clinical interests converge on the implementation and dissemination of evidence-based treatments for eating disorders.
