Stanford

Cristiana Vattuone, PhD

Clinical Research Associate, Psychiatry and Behavioral Sciences - Child & Adolescent Psychiatry and Child Development

Bio

BIO

Dr. Vattuone is a clinician and researcher for the Autism and Developmental Disorders Research Program in the Division of Child Psychiatry and Behavioral Sciences. Dr. Vattuone's expertise includes clinical and neuropsychological assessment of autism spectrum disorder and associated genetic conditions. Dr. Vattuone received her Ph.D. in Human Development and Psychology from the University of California, Los Angeles with specialized training in evidence-based interventions. Dr. Vattuone’s research efforts focus on the early identification, diagnosis, and treatment of infants and toddlers, developmental trajectories, and the role of the family in supporting positive outcomes. Her dedication to research, treatment, and training continues at ADDRP to support individuals with autism spectrum disorder and their families.
